- Number of bednights sold increased by 113%. Costs increased in-line with increased
- Loss after tax reduced by 36%.
  Net cash and cash equivalents of P11.1
- million.
   P 11.8 million positive cash generated from
- operations

#### BASIS OF PREPARATION

The unaudited abridged financial statements for the half year ended 31st August 2021 have been prepared based on accounting policies which comply with International Financial Reporting Standards. The accounting policies applied are consistent with those of the annual financial state-ments for the year ended 28th February 2021, as described in those annual financial statements.

#### FINANCIAL RESULTS

The half year under review saw a gradual, but at times, stuttering recovery of travel world-wide. Southern Africa was generally unable to take advantage of this as both Botswana and South Africa remained on Britain's "Red List" during period under review. Despite this the Group achieved 8% in the comparable period last year, all of which was generated in the first few weeks of March 2020 before the pandemic broke giving rise to the consequent cessation of all travel. Achieved occupancies in the current period grew from an extremely low base at the start of the financial year, encouragingly however steadily improving month by month till the end of the period.

During the half your directors continued to ensure the assets of the company remained not only pro-tected but maintained to a standard that would enable them to be brought back into operation at immediate notice, the benefit of these precautions has allowed for the seamless re-activating of all camps, lodges with particular reference to the aviation division. Whilst no staff were retrenched or went unpaid during the pandemic, salaries and wages were reduced on a sliding scale with the highest paid most severely prejudiced and the lowest least so. As business improved during the half most staff have been brought back to work on full remuneration.

A combination of careful cost controls, improved trading and an increase of almost P 14 million from the financial year end in respect of Advance Travel Receipts, has allowed the group to repay almost the entire overdraft facility whilst still re taining net Cash and Cash Equivalents of almost P 11 million at the end of the half. This positive outcome has been achieved despite the suspension of the wage subsidy granted by government in the two previous halves.

One of our aviation division's aircraft with a short ield performance profile no longer required was

successfully sold for in excess of P10 million, after reporting date, subject to maintenance checks and other legal requirements all of which have been met. The actual handover of the aircraft and payment is now imminent. The aircraft was presented under assets classified as held for sale in last financial statements.

The results thus reflect the steady improvement of trading conditions and are in line with expecta tions for occupancies at that level, this especially so given the mix of minimal rates applied to local and regional travellers and the enhanced rates achieved in respect of international travellers

#### **FUTURE OUTLOOK**

Whilst the COVID pandemic is not over, circumstances have finally brightened for the world-wide tourism industry thanks to the high vaccination rates amongst the travelling public and the imple mentation of effective preventative protocols, such that even if a more virulent strain emerges in future, high immunity levels and the availability of better and more informed healthcare procedure will almost certainly ameliorate the consequence es. This improving situation has already lifted a number of other constraints previously limiting the Group's ability to trade, namely:

- Travel restrictions have been eased with airlines particularly from our source markets in the northern hemisphere.
- The lifting of the state of emergency and the alcohol ban has done much to assure the travelling public as to their safety and rights of
- The removal of all Southern African countries including Botswana from Britain's "Red List" has considerably further eased travel to us by British nationals whilst also improving perceptions worldwide.
- We have on an industry wide basis successfully engaged with and worked with local health authorities to prioritize the vaccination of tourism workers in terms of the availability of vaccines, logistics such that most were vaccinated at their place of employment and the considerable administrative effort associated with the project. Today we pleased to report that almost all our staff have heen double vaccinated and now have the official vaccination certificates issued by the Ministry of Health and Wellness.
- The recently completed negotiations to acquire Nxamaseri Island Lodge on the Okavango Pan Handle will greatly enhance the offerings of our Desert & Delta Safaris brand.

The above has largely restored the confidence of the travelling public to begin to travel again, unleashing a noticeably strong demand pent-up over the past eighteen months. Further the Group's policy of "don't cancel but defer" has kept in place

a large proportion of the forward bookings that were held at the onset of the pandemic with our reservations offices now able to fix travel dates in respect of those travellers. Most encouragingly however, is that the aforementioned increase in Advance Travel Receipts reflects a strong future interest by the travelling public reflecting their confidence in our travel offerings.

Occupancies in the second half, though increasing, will remain relatively subdued especially as would be expected, in respect of our traditional low season months of January and February. Forward bookings already on hand however indicate that, barring the unforeseen, trade levels will begin to uptick to their pre-COVID levels from the onset of the new financial year in March. We remain confident that owing to our effective cost control measures during the pandemic, our unrelenting efforts to maintain all operational assets, the continued loyalty of our staff despite the past diffi-culties experienced by all, and our still largely debt free balance sheet, we will be able to guickly take advantage of the increased husiness levels enabling us to restore the group back to profitability.

Notwithstanding the financial impact of COVID pandemic on the group, the personal toll on all employees has been significant, thankfully however the half under review. The board fully recognises and appreciates that the pandemic has tested the commitment of shareholders, our executive, management and staff. Despite the challenging times experienced, we remain as a group as committed and determined as ever to ensure Chobe remains a responsible corporate citizen and a leader in Botswana's sustainable wildlife tourism industry.

#### DIVIDENDS

Recognising the importance of preserving the group's cash resources, directors have elected to defer the declaration of dividends until such time as the Group's earnings potential and cash flows

#### UNCLAIMED DIVIDENDS

The directors wish to bring to the notice of shareholders that there are certain amounts of unclaimed dividends in the Company's records. In terms of clause 27.5 of the Company's Constitu-tion, dividends unclaimed for three years after due date for payment may become the property of the Company and used for the benefit of the Company. The shareholders concerned are therefore advised to claim their unclaimed dividends within the prescribed three-year period.

Shareholders can claim their unclaimed dividends by contacting the Company's transfer secretaries:
